DIAGRAM OF THE STATE OF OHIO,

ILLUSTRATING A METHOD OF DESIGNATING THE RELATIVE POSITIONS OF THE COUNTIES IN THAT AND OTHER STATES BY SYMBOLS, AS USED IN THE FOLLOWING LIST OF POST OFFICES.

DEVISED AND (COPYRIGHTED) By JOSEPH M. TONER, M. D., OF WASHINGTON, D. C. Adopted by the Postmaster-General, September 1, 1875.

This method consists in regarding the Counties of each State (or Territory) in their relation to an imaginary division of the area of the State into a central, northern, eastern, southern, western, northwestern, northeastern, and southwestern section—each of these nine sections (each containing several counties), being, as near as may be, of equal area, and designated by the simple series of symbols shown above.

In States nearly square or rectangular the supposed division is readily made,—in others, as for instance Florida, Maryland, New Jersey, etc., some of the nine sections do not appear, but in all cases the most practically approximate division has been adopted.

558

POST OFFICES AND BRANCH POST OFFICES

ARRANGED BY STATES AND COUNTIES.

JUNE 1, 1910,

[For Supplement containing changes to July 1, 1910, see Index.]

For explanation of Symbols attached to names of Counties, see preceding page.

Money Order offices, stations, summer and winter post offices and number of rural routes are indicated in the State List.

Named stations are in parentheses.

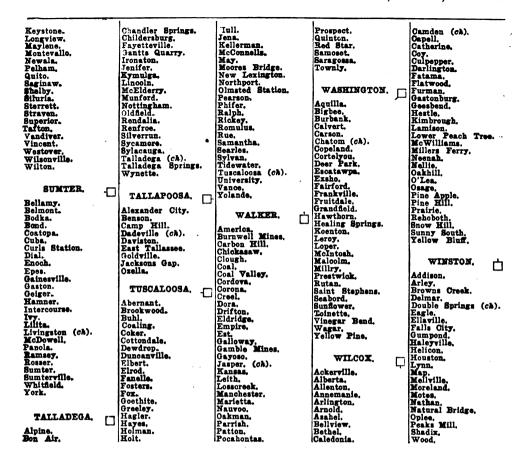

By the letters (ch) county seats are indicated.
